You Can Trust*

**NOVAPACK**  
FILMS

NOVAPACK FILMS is a venture of 'RAJ PLASTIC INDUSTRIES' and 'FLOWTECH INSTRUMENTS' to foray into packaging business. With the vast experience of over 20 years in plastic manufacturing business and high demand of the quality product in Indian Market, Company decided to get into manufacturing of LLDPE Stretch Films divulging it under the brand name: NOVASTRETCH. Stretch Film is manufactured from LLDPE (Linear Low-Density Polyethylene).

The elastic recovery keeps the items tightly bound. Once stretched, the elastic recovery is used to keep the load tight. It is frequently used to unitize pallet loads and bundling smaller items. The film is wrapped around one or more products with the aim to stabilize protect and secure the cargo from tampering or theft. Gilt-edged approach towards the industry amidst cut throat competition makes us the leading manufacturer and supplier of Stretch Films in the market.

## Our range of Stretch Films

### **NovaStretch Manual Wrap**

- Available in various sizes and is designed specifically to be applied manually.
- It is also referred as hand film, hand stretch wrap, hand wrap or manual pallet wrap.
- It is typically utilized in lower capacity packaging operations.

Width **50mm - 1500 mm**

Thickness **9 mic - 70 mic**

### **NovaStretch Machine Wrap**

- It is typically designed to be applied with a stretch wrap machine.
- It provides many advantages over Manual Wrap
- Faster and more efficient, reduces packaging costs and many more.

Width **150mm - 1500 mm**

Thickness **23 mic - 70 mic**

### **NovaStretch Printed Film**

- A cost effective way to identify, protect and advertise your product.
- Helps to establish and promote brand image in the market at affordable prices.
- We provide single and double colour printing solution.

Width **75 mm - 750 mm**

Thickness **25 mic - 50 mic**

## Nova PreStretch

- It is stretched close to its ultimate break point prior to being wound onto rolls for final use.
- The film doesn't require as much stretching energy as a standard stretch film to achieve the same wrapping force.
- Same (or better) load stability with less product, less physical energy and greater control.

Width 450 mm

Thickness 9 mic - 15 mic

## NovaStretch Colour Film

- It is ideally used for product differentiation, warehouse colour coding, etc.
- Our opaque films are used to conceal product loads
- It comes in various sizes and colours ranging from Black, Red, Green, Yellow and many more.

Width 50 mm - 1500 mm

Thickness 9 mic - 70 mic

## NovaStretch UVI Film

- UVI stands for Ultra Violet Inhibitor. These films are used over products stored under direct sunlight.
- UV rays weaken non UVI stretch wrap products causing them to lose strength and load integrity.
- It protects material from prolonged UV exposure.

Width 75 mm - 1500 mm

Thickness 23 mic - 70 mic

## NovaStretch VCI Film

- VCI stands for Volatile Corrosion Inhibitor.
- It provides anti-corrosion protection to stretch wrap packaging applications.
- They provide cost effective corrosion protection to ferrous and non-ferrous metals, and metal parts.

Width 75 mm - 1500 mm

Thickness 23 mic - 70 mic

## Nova Caution Tapes

- Also known as Warning Tape, Barrier Tape, Notice Tape, Danger Tape or Hazard Tape
- Used to warn or catch the attention of passersby of an area or situation containing a possible hazard
- We manufacture these in various sizes as per customers needs along with single or double colour printing.
